TEN THOUSAND CHEERS, TALL STRAIGHT REPUBLICAN

First Rally of the State Campaign in
California Is Held in San Diego.

Bowers's Reply to the Absurd Harangues of Johnson
Replete with Convincing Facts and Argument to Show
Why All Good People Should Stand Together to Re-
deem the Commonwealth From Misrule.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

HOT SHOT FROM BOWERS'S SPEECH.

THE Republican party is coming back, bigger, stronger and better
than ever before.

The birth of the Republican party was the natural and in-
evitable coming together of people who were of one mind in opposition
to the spread of human slavery. How different the founding of the
newborn party now called Progressive! It has become the leading fac-
tion of Socialism.

The leaders and promoters of the Progressive party assail and de-
nounce nearly every business industry throughout the country that
gives employment to labor. They incite the ignorant and vicious to
harass and destroy such industries, and directly encourage the I.W.W.
to acts of violence and destruction.

The new registration of voters of this State shows almost con-
clusively that about all the resource and backing the Progressives
have in California today is its pie-counter brigade, with its brothers-
in-law, its uncles, aunts and cousins feeding at the pie counter.

You Republicans must bear in mind that the primary vote is always
small, and don't you go to sleep on primary day, and by your negli-
gence let the Democrats upset your great majority.

Let us all, young Republicans and old Republicans, stand together
in upholding the pennant of the Grand Old Party.

SAN DIEGO (Cal.) April 8.—More
than ten thousand enthusiastic Re-
publicans applauded warmly tonight
as former Congressman W. W. Bow-
ers answered in no uncertain terms
the harangues of Hiram Johnson made
recently. Germania Hall was tonight
the scene of the first rally of the
campaign of the Straight Republican
Club, an organization of 1909 true blue
Republicans of San Diego.

The rally was an old-fashioned Re-
publican campaign meeting and was
characterized by enthusiasm and a
spirit of get-together on the part
of the members of the party of Lin-
coln. The rally showed the restora-
tion to the party of many who, for a
time, wandered all Republicans to vote
the straight ticket, even though it was
headed by a man they had no con-
fidence in.

"I see before me men who want
bravely into political oblivion with a
positive belief that they would live to
see the day when those who had de-
graded this country ever saw. I see before
me men who ten years ago, were still
working for the party of Lincoln in its
greatness. I see before me men who
at the last election of State officers
advised all Republicans to vote the
straight ticket, led to 'worship false gods,' and

DEMOCRATIC HONEYMOON IS PRETTY WELL OVER.

And the Disintegration of What Used to Be Called, in
the Apoclectic Times of Chicago Rump Con-

Facts of the Elections Held Day Before Yesterday.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF THE TIMES, April 8.—

Several
congressional elections throughout
the country met today. The Wil-
son administration came into power
have afforded both Democrats and
Republicans some degree of satisfac-
tion. It must be conceded, however,
that the two latest elections held to
fill vacancies in the House of Re-
presentatives—those in the Seventh
New Jersey and the Twelfth Massa-
chusetts districts—are decidedly more
encouraging to the Republicans than
to the Democrats.

It is largely owing to the foolish
effort of the administration itself to
nationalize the significance of the
campaign in the Seventh New Jersey
election, that the Republicans are able to get
decided satisfaction out of the result.
The declaration of Democratic man-
agers, now that the Democratic candi-
date has been defeated, to the effect
that a strong Republican district
merely has gone Republican will not
suffice to cancel the real Democratic
feeling in high official circles after
President Wilson's letter of endorse-
ment of Mr. O'Brien and his request
that the New Jersey voters "show
their judgment with regard to the
present administration," and following
the stump speeches of such national
high lights as Senators Lewis and
James, to the effect that New Jersey
would stand disgraced before the
country and that President Wilson
would be humiliated in the eyes of the
whole American people if Democratic
policies were not discarded through the
election of a Democratic successor to
the late Representative Broomer.

GORMAN'S COMMENT.
Senator O'Brien of New York,
who has a feud with the administra-

ironically commented on yesterday's
election with the statement:
"It looks as if the Democratic
honeymoon had come to an end."

PARTISAN FIRE.
In the House of Representatives
this afternoon there was a sharp ex-
change of partisan fire over the lat-

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

BOSTON, April 8.—A bill to
license cats in Massachusetts
was passed by the House of
Representatives this afternoon.
Supporters of the bill are elated,
for this is their first victory,
although the bill has
been before every Legislature
for many years. It passed by
75 to 41. The bill provides
that all unlicensed cats may be
killed on sight. A farmer is al-
lowed to keep one unlicensed
cat for the protection of his
grain, but the bill spells the

cated the measure.

an absolute neutrality of foreigners
in the affairs of the country. Later,
after popular investigation, it is
found that any of these Spaniards
have never meddled in political affairs
they will be allowed to return to
Mexico.

"It is known all over the republic
that the Spaniards have taken an
active part in the politics of Mexico.
They conspired in the overthrow of
Madero and after that held a public
manifestation and banquet at Vera
Cruz in celebration of the event. Hun-
dreds of them have come out openly
and taken part with Huerta. One of
the principal ones who might be
named is Gen. Rincon-Gallardo, com-
mander of the rurales, who is a Span-
ish subject and retains his title of
marquis. Although the Spaniards have
the same language and customs of
our country, they cling to their na-
tionality for the protection it has af-
forded them in oppressions of our
people. They rarely become Mexican
citizens, although they mix actively in
our politics."

THE REFUGEES REACH EL PASO.

[BY A. F. NIGHT WIRE.]

EL PASO (Tex.) April 8.—Eight
hundred members of the Spanish col-
ony of Torreón, expelled from their
town after having passed through the
recent great battle in fear and trem-
bling and afterward facing the wrath
of Gen. Villa, stood today beneath
the "Stars and Stripes" flag.

They were refugees truly, stripped
of all possessions, and with only the
clothing on their backs.

Wilson Offering to
Colombia.

Alienates His Own Demo-
cratic Senate to Appease
the Latins.

Greater Row Than the Repeal
Policy Has Engendered
Is Promised.

And a Revolution Is Likely
if the Money Ever
Reaches Bogota.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF
THE TIMES, April 8.—Another
big row for the Wilson adminis-
tration in connection with the Pan-
ama Canal is breaking as a result
of a treaty signed with the govern-
ment of Colombia by which the
United States has agreed to pay \$25,-
000,000 to the South American re-
public.

This treaty, which is intended as
a quickie upon alleged Colombian
rights in connection with the separa-
tion of the Republic of Panama from
its mother country, will not be rat-
ified by the United States Senate. It is
safe to predict, for two reasons.

First—Because it is a confession
that the American people deliberately
conspired to rob Colombia of Panama
in order to secure control of the ap-
proach to the waterway now practi-
cally completed, and formally ex-
presses regret for the course pursued.
Second—Because it is a colossal sum
which Secretary Bryan has
agreed to pay to the Bogota authori-
ties.

Senators were astounded today by
the announcement of the signing of
such a treaty as that described in a
legation here and not denied by the
State Department.

The United States will receive noth-
ing of any practical value in return
for the \$25,000,000 to be paid to the
Bogota government, or for the apol-
ogy to be offered. It secures no rights
in connection with the interoceanic
canal route across the Isthmus of
Panama, and no rights in the zone
privileges on San Andres and Provi-
dencia Islands, off the Colombian
coast. There is no concession of
any kind.

In other words, Colombia re-
cognizes the de facto situation and
formally acknowledges the indepen-
dent status of Panama. This carries
with it, of course, acknowledgment
of the right of Panama, expressed in
a treaty signed by John Hay to zone
in perpetuity the Panama Canal Zone
to this country.

According to the administration,
this is a substantial concession be-
cause, it is said, it absolutely clears
for all time the title of the United
States to the Panama Canal Zone.
But, it is contended, it was not nec-
essary for the United States to ob-
tain this concession, and it is a heavy
price for it, in view of the fact
that the independence of Panama
was recognized by all the
powers of the world at the time the
treaty with that country was signed.

The administration further claims
that the restoration of the zone to
Pan-American relations. This is ex-
tremely doubtful, for the reason that
the moment Colombia receives any
portion of the money, that moment a
revolution is apt to break out through
the desire of the "outs" to be in
office when the cash is received.

Senators, who have been backing
the President's policy with reference
to the repeal of the annual rental of
American coastwise ships passing
through the canal from the payment
of tolls are greatly irritated by the
offer what they term the stupidity
of the State Department in injecting
this new and disturbing element into
the situation. Senators Lodge and
a number of Republicans, such as
Senator Root, who was Secretary of
State after the Hay-Panama agree-
ment, will resist sharply not only the
proposal to pay Colombia \$25,000,000,
but above all the declaration of re-
gret in the treaty and the confes-
sion, which such declaration implies
that the United States wronged Col-
ombia in connection with the
separation of Panama from the con-
trol of the government at Bogota.

Prior to the Panamanian revolu-
tion, a treaty was signed by repre-
sentatives of the United States and
Colombia, by which the United States
authorized the construction of the
canal at Panama in return for \$10,-
000,000 and an annual rental of
\$250,000. The Senate here promptly
ratified the proposed treaty. The
Colombian government, however, re-
fused to ratify the treaty, and the
action of its representatives and
indicated that it would ratify the
treaty only if paid \$25,000,000.

The United States declined to yield to
this demand, whereupon Colombia con-
cluded that it could not constitution-
ally give approval to the convention,
and it is apparent that the alleged con-
stitutional objection was a mere pre-
text to avoid the payment of the ex-
orbiting \$10,000,000 more from the
American people.

Since the separation of Panama,
Colombia has observed an ugly at-
titude toward this country. It pro-
posed arbitration of the Panama
question, which Secretary Hay de-
clined to consider on the ground that
the Colombian claims were political
and not justifiable and might call
into question the right of Panama to
exist as a sovereign state. Mr. Knox, Sec-
retary of State, under President Taft,
offered to pay \$10,000,000 to Colom-

who recently got a divorce from
Harold Strebeigh, wealthy member
of the Union and Rockaway Hunt
clubs, were married at the City Hall
here today by Ald. "Happy Jack"

Mrs. Strebeigh was somewhat astounded when he
was asked if there was an alderman
who could marry them at once.
Mr. Bonaparte gave his age as 38
and residence as No. 1123 Ver-

he had no occupation and that he
had never been married before. He
was born, he said, in Paris.

Mrs. Strebeigh, who was met at
the City Hall by her lawyer, who
handed her a decree of divorce dated
April 3, signed by Justice Manning
of the Supreme Court, Brooklyn, said
that she was 34 years old and lived
at the Vanderbilt Hotel. She was
born in Newtonville, Mass., the
daughter of Edwin and Emily Hill
Pierce and this was her second
marital venture.

Mrs. Bonaparte was divorced from
her first husband on statutory
grounds.

The couple had been popular mem-
bers of the Narragansett Pier Col-

at Hewlett, L. I. The divorce pro-
ceedings were managed so quietly
that the majority of their friends at
Narragansett Pier and on Long Is-

TORREON, BATTLE GROUND FOR REBEL AND FEDERAL.

Born on the Barren Desert in the Progress of Collis P. Huntington's Mexican Railway Projects, Its Ruins Now Mark What Was Once a Great Industrial City of Thirty Thousand Inhabitants.

BY W. D. HORNADAY.

(SPECIAL FOREIGN CORRESPONDENCE.)

TORREON (Mex.) April 8.—It is around Torreon that most of the important military movements of both the Federal and the armed opponents of the existing government have been centered during the last three years. The recent battle which took place here was the most sanguinary struggle of the series of civil wars that have afflicted the country during this period.

While in some respects Torreon has the appearance of a typical Mexican city, its location is entirely to American capital. It is one of the few towns in the republic that is not of ancient origin. As an industrial center, Torreon had a remarkable growth. It was for several years previous to the revolutionary period one of the chief manufacturing cities of Northern Mexico. Many millions of dollars of American capital have been invested here in the establishment of Torreon is directly connected with the construction of the Mexican International Railroad, which is now a part of the government railway system.

HUNTINGTON'S PROJECT.
About twenty-five years ago the late Collis P. Huntington, head of the Southern Pacific Railroad, conceived and began carrying out the project of building a railway across Mexico. The new road, connected with the main line of the Southern Pacific at El Paso, Tex., running south from there to the Rio Grande, crossing the international boundary stream at Eagle Pass. Huntington made rapid progress with the construction of this road and in the early '80s it was finished to a crossing of the old Mexican Central Railway, where the site of the present city of Torreon is located. At that time the ground upon which Torreon now stands was a barren and unattractive desert waste.

Huntington erected the first buildings here and encouraged the establishment of manufacturing enterprises of Americans, who were quick to see the future possibilities of the location. It was Huntington's belief that a great city would be built here and at the time of his death he had considerable money invested in lands here and around the town. Most of this property, however, was disposed of by the administrators of his estate.

That Torreon is of modern construction is shown by its wide streets, well laid out plazas, or parks, and the general advanced type of business buildings. From El Paso to Torreon is 137 miles, and from Torreon to El Paso is 118 miles. The Mexican International stopped here for some time, but was eventually constructed farther south to Durango, a distance of 187 miles. The plans of Huntington contemplated extending the line to the Gulf of Mexico, but when Durango was reached the towering heights of the Sierra Madre mountains were found to present an apparently unsurmountable obstacle to the desired outlet. Many surveys were made with the view of discovering a route across the mountains, but no practical way of accomplishing this was found.

THE BOOM DAYS.
Immediately after the road was finished to this place a boom in building the town took place. It was the first and only boom of that character that was probably ever witnessed in Mexico. American and other foreign investors flocked in here by the hundreds, and the business, both mercantile and industrial, of this and surrounding territory has been conducted largely by foreigners ever since the town's establishment. At one time during Torreon's prosperity more than 10,000 Americans made their home here.

With the discovery a few years ago of the value of the rubber shrub, impetus was given to the industrial growth of the city. The region around here was a large producer of the rubber shrub, and enormous sums of American capital were invested in these lands and in the establishment of factories for extracting rubber from the plant. In this city one company, known as the International Rubber Company, has a factory that cost approximately \$5,000,000. There is a large car smelter here, the stock of which is owned by the Madron family, but American interests also were represented in this concern and in many other industrial plants of lesser importance.

HOTELS.

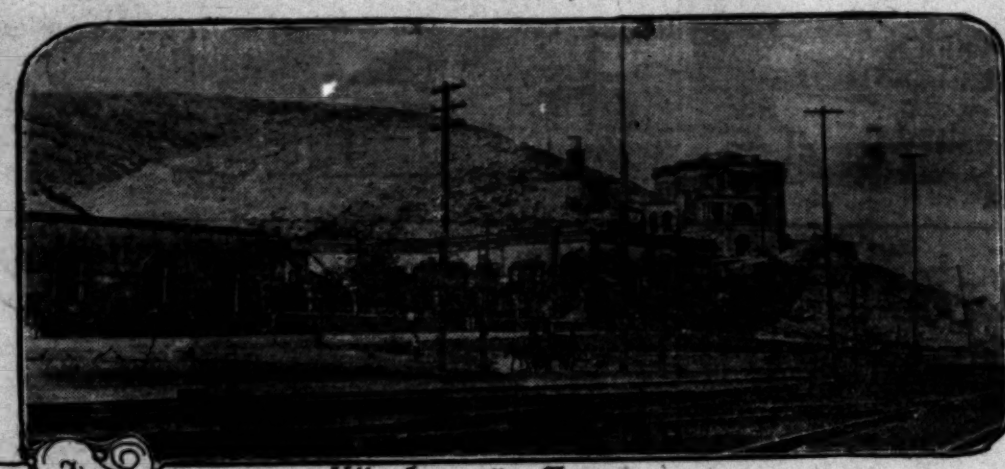

The fact that Torreon is the chief distributing point for a large and rich territory, together with its importance as a place where foreigners were wont to gather in large numbers, caused it to be well supplied with modern hotels, which is something out of the ordinary for a Mexican city. It is not to be wondered that the Constitutionalists in their recent onslaught made the Stierman Hotel their first objective point. It had long been the headquarters of carrying a large stock of liquid refreshments and a supply of products that would be welcomed by the constitutional department of the army. It was in this hotel that Gen. Francisco Villa made his headquarters when he arrived within the precincts of the town, and from here he directed the military operations of the armed cohorts in their attack upon the remainder of the city. Gen. Velasco, commander of the Federalists, had his headquarters in the Salvador Hotel, situated several blocks from the Stierman.

FARMING CENTER.

Besides its importance from a military standpoint.

From the standpoint of spending money for advertising economically, so that every penny will yield a satisfactory return, the Los Angeles Times is rivaled by few newspapers anywhere and excelled by none. This journal's pre-eminent circulation qualities make its advertising columns the most direct method of reaching a multitude of buying readers, and advertisers who are desirous of increasing the efficiency of their sales organization cannot afford to ignore The Times.

buildings in the business portion of the city.

THE BIG HILL.
The principal landmark in or near Torreon is a hill perhaps 500 feet high, that rises abruptly out of the plain just to the rear of the railway station. On the side of this hill is a handsome residence which was built by a German civil engineer. It was after gaining possession of this hill that Gen. Villa was able to train his guns upon the streets and buildings of the main part of the city that lay only directly below him. It was a position that enabled his forces to take the occupancy of the town.

Captains of the Rangers Will Investigate Trouble in Madero Caused by Drunken Mexicans.

(BY A. P. NIGHT WIRE.)
BROWNSVILLE (Tex.) April 8.—Capt. John R. Hughes of the Texas Rangers left Brownsville today to investigate the reported "shooting up" of the town of Madero, which was a German town of the village of Madero, Tex., near the border.

A report reaching the United States customhouse here asserted that thirty Mexicans crossed the river and "shot up" the town yesterday. No one was injured. Private accounts of the affair said the residents of Madero were so frightened they did not dare call for help until the Mexicans had finished their carnal and crossed the border.

Gen. Pablo Gonzalez and staff left Matamoros today by train presumably to direct the proposed Constitutionalists at Monterrey. It was said that before any attempt is made to take the city a force of Federalists must be driven from Cadereyta, south-east of Monterrey.

MOVE AGAINST THE "SYSTEM."
New York Police Commissioner Hopes to Break up Conditions in Department.

(BY A. P. NIGHT WIRE.)
NEW YORK, April 8.—What is considered an initial move against conditions in the New York police force identified as "the system," was made in the first general order issued by Police Commissioner Arthur Woods, who assumed office today.

"Until further orders," says the instructions, "members of the force will be required to forward applications for an interview with the commissioner through official channels, but will apply in writing."

In the past a policeman who wished to bring an official subject, such as a law violation he had noticed on his beat, directly to the attention of the commissioner, has been obliged to submit his application for an interview first to the captain, and for this reason discouraged the making of reports direct to headquarters. Mr. Woods' order, it is understood, aims to eliminate this, tending at the same time to furnish captains and inspectors with an incentive to keep their precincts in good condition.

Government at Mexico City Denies Torreon Is Taken; Correspondents Are Warned About False News.

(BY A. P. NIGHT WIRE.)
MEXICO CITY, April 8.—Rebels are concentrating in the neighborhood of Monterrey, according to information received here today. The garrison is being reinforced.

Private advices to rebel sympathizers say Federalists are attacking Torreon in an effort to recover the town. The government still denies that Torreon has been taken.

Correspondents were officially warned in the Diario Oficial tonight that the sending out of false news calculated to embarrass the government and aid the rebels would result in their expulsion.

Preparation.

PLAN CAMPAIGN ON ZACATECAS.

GENS. GUTIERREZ AND NATERA LEAVE FOR CHIHUAHUA.

San Luis Potosi, Another City Which Obstructs the Route to Mexican Capital, May Be Attacked, Although Villa at Present Does Not Sanction an Engagement.

(BY A. P. NIGHT WIRE.)
JUAREZ (Mex.) April 8.—Eulalio Gutierrez and Gen. Panfilo Natera, who have been here for several days conferring with Gen. Carranza, left Chihuahua today. In that city they will exchange ideas and plans with Manuel Chao, the military Governor, and then rejoin their commands.

While it was reported that they contemplate an immediate campaign against the important city of Zacatecas, 100 miles south of Torreon, and the next important city to the south, it is generally considered rather early to state definitely just what direction the next campaign will take.

There are Federal garrisons at Monterrey and Saltillo, according to reports, and Gen. Carranza is expected to evacuate Torreon in good order with five or six thousand of his men, if somewhere in the district. Federalists are reported also at San Pedro, east of Torreon. Tampico, on the Gulf of Mexico, and Matamoros on the Pacific side, still are in Federal hands, although rebels recently were reported fighting in the streets of the former city.

While Gutierrez and Natera are said to have men enough to harass both Zacatecas and San Luis Potosi, both important cities which obstruct the path to Mexico City, it is considered doubtful whether Villa will sanction a decisive engagement at either city until he is assured of success. It is considered more likely that he will attempt to conquer the Federalists in his present vicinity before proceeding further south. It is pointed out that he could not afford to leave a considerable enemy in his rear.

Two million rounds of ammunition and an aeroplane were shipped to him today and it is believed that he is again equipping his army, as he did before Torreon, in the most thorough manner for another big battle in the north. Complete re-equipment of uniforms, shoes and underwear is on its way to him now.

Should the Federalists abandon their present positions and attempt to mobilize in fuller force at Zacatecas or San Luis Potosi, or both, Villa's task would be simplified. At least his objectives would be plainly before him and he could make preparations accordingly. As it is, the enemy is elusive and scattered, but he is said to believe that he can bring on a general and decisive engagement. The thoroughness of his present preparations is taken to indicate that the battle may lie some weeks in the future.

Youths Arrested at Stockton in Connection With Charge Involving Girls, Released.

(BY A. P. NIGHT WIRE.)
STOCKTON (Cal.) April 8.—Roy Pace and A. Barasochi, the two young men from Bakersfield who were arrested here a few days ago, pending an investigation of their departure from that city with two young girls, were released today upon the recommendation of Probation Officer Taylor, word having been received here that though the arrest of the men was sought in the first instance, it is now no desire to further prosecute them.

TELEGRAPH SECURITIES SAFE.
Western Union President Advises Stockholders Not to Be Scared into Sacrifices of Their Property.
(BY A. P. NIGHT WIRE.)
NEW YORK, April 8.—Pursuant to the agreement with the Department of Justice disintegrating the Western Union Telegraph Company and the American Telephone and Telegraph Company, directors of the American Telephone and Telegraph Company, who were likewise directors of the Western Union, resigned today from the Western Union board.

Those who resigned are E. J. Jeffery, Charles L. Lenz, Lewis C. Ledyard, John J. Mitchell, Harry B. Thayer, Theodore N. Vall, John L. Waterbury and Robert Winsor. The other directors were re-elected and the following were added to the board: William H. Baker, Henry W. De Forest, William F. Farnsworth, Percy A. Rockefeller, Mortimer L. Schiff, William H. Truesdale.

A meeting of the new board has been called for April 15, when it is expected Newton Carlton will be elected president. In a statement to the stockholders, President Vall took occasion to discuss the possibility of the government control of telegraph lines. "The property of the company," he said, "cannot be taken unless a full and proper equivalent is returned to the owners. In such a case, the stockholders should receive at minimum a sum far in excess of the present market value of the shares."

"The other alternative which has been advanced, to take over the long-distance telephone lines and enter into competition with the existing telegraph lines for the purpose of destroying their business, is not only so questionable a character as to be repudiated when its full significance is realized, but is so utterly impossible and unworkable from a practical point of view, as to make it negligible. The owners of the securities of the Western Union may rest quietly and not be scared into the sacrifice of their property."

NO JOKE TO FATHER.
Mr. Hope Man Commits Suicide After Wife and Daughter Had Shown Him Their Easter Finery.
(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)
NEW YORK BUREAU OF THE TIMES, April 8.—Angered by the display of Easter finery which his wife and three daughters were showing him tonight, William Weiss of Mt. Hope, West Chester county, seized a double-barreled shotgun and shot himself through the head, dying instantly.

Mr. Weiss and daughters returned from New York tonight with a collection of hats and clothing for wear for Sunday. When Weiss unbraided them they laughed at him for getting angry. "You won't feel so funny about this by Sunday," he said, and disappeared into another part of the house. A moment later he committed suicide.

KING'S BROTHER TO PREACH.
Prince Max of Saxony Creates Sensation in Paris by Announcement of Coming Sermon.
(BY ATLANTIC CABLE AND DIRECT WIRE-EX.)
PARIS, April 8.—Prince Max of Saxony, a brother of the King of Saxony, preaches at St. Julien le Fauvre, the smallest church in Paris, on Good Friday.

This announcement has caused a great sensation here. The church seats only 200 persons, while thousands of prominent Catholics will rush to hear the German Prince's sermon.

Colicky Pains in Stomach Disappear
Fruitola a Great Help to Sufferers From Acute Bile Trouble.
It is scarcely believable the number of people who suffer from a peculiar form of liver trouble which results in the bile hardening and forming into stones in the gall bladder. These stones are sometimes no larger than a pea and yet may be an inch in diameter. Some constitutions form them so rapidly that they may pass hundreds in a single day to the bewilderment of doctors.

When these stones pass from the gall ducts into the intestine, they cause terrible pain. The pain will usually be at the margin of the ribs on the right side and extend to the shoulders and the entire abdomen. This was the unfortunate condition of Mrs. Veda Breasale of 702 River street, Canon City, Colo., and her doctors advised her she had gall stones. About the same time a friend urged

Valuable Item For Men

Health and strength hitherto unknown will be felt during the rich red blood through the arteries and veins and life's greatest ambitions may be realized as never before. If the following special treatment is followed by those men, and women, too, who are stricken with that most dreaded of all afflictions, nervous exhaustion, accompanied with such symptoms as extreme nervousness, insomnia, cold extremities, melancholia, headaches, constipation and dyspepsia, kidney trouble, dreadful dreams of direful disasters, timidity in venturing and a general inability to act naturally at all times as other people do. Lack of poise and equilibrium in men is a constant source of embarrassment even when the public brings suspicion. For the benefit of those who want a restoration to full, bounding health and all the pleasures of life, the following home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction.

The treatment is simple, thorough and correct. Leading druggists supply the main ingredients. Get and use in one-ounce bottles and use in one-ounce bottles. The syrup is composed of the following: one ounce compound fluid balsam, and one ounce compound essence cardui, and one ounce tincture cadomese compound (not cadomese). Shake well and take a teaspoonful after each meal and one at bedtime.

The ingredients are used for various prescriptions.

COLD TO FRENCH "JOHNNIES."
Over Hundred Storm Station in Paris to Great Rev of American Chorus Girls.
(BY ATLANTIC CABLE AND DIRECT WIRE-EX.)
PARIS, April 8.—More than a hundred French "Johnnies" stormed the Gare du Nord station today to meet the chorus of an operatic company Henry Russell has brought from Boston for the American season at the Theatre des Champs Elysees. Word had gone around that the boat train from Antwerp would bring the bery of American beauties. So the gilded youth of Paris hurried to meet them. The charming young women of the chorus were entirely unresponsive, only two displayed emotion; overcome by homesickness, they wept on the platform.

JAIL THREAT FOR SIEGEL.
Judge Willing to Send Him to Tomb if Necessary When He Pleads Not Guilty.
(BY A. P. NIGHT WIRE.)
NEW YORK, April 8.—Henry Siegel and Frank E. Vogel, heads of the bankrupt Siegel enterprises, pleaded not guilty today to indictments charging grand larceny and violation of the State banking laws. In signing bench warrants for them when they failed to appear in court on Monday, Judge Mulqueen said he would see to it that, if necessary, the pair was placed in the Tombs. Fourteen new indictments were returned against them yesterday.

DIVORCES "LAFF" FENCE.
Wife of Former Representative From Colorado Is Granted Interlocutory Decree in Brooklyn.
(BY A. P. NIGHT WIRE.)
NEW YORK, April 8.—Mrs. Catherine Pence, wife of Lafayette Pence, a former Representative from Colorado in Congress, was granted an interlocutory decree of divorce today by the Supreme Court in Brooklyn. The divorce did not defend the suit. The couple have no children.

LITTLE HOPE FOR SEALER.
Search Of Newfoundland Fails to Reveal Any Traces of the Southern Cross.
(BY ATLANTIC CABLE AND A. P.)
ST. JOHN'S (N. F.) April 8.—There was no news today of the Southern Cross and her crew, which were sighted in the wreckage of the ship, but it cannot be connected with the missing sealer.

TO AID WIDOWS.
(BY A. P. NIGHT WIRE.)
NEW YORK, April 8.—William J. Ellis, Mayor of St. John's, N. F., now in the city, issued a call for a meeting of the Newfoundlanders in New York tomorrow evening to organize for the relief of the families of the fallen and suffering from the sealing disaster.

DOWAGER EMPRESS DYING.
Members of Royal Family Summoned to the Bedside and End Is Reported Near.
(BY ATLANTIC CABLE.)
TOKIO, April 8.—At an early hour this morning the Dowager Empress Haruko was reported to be dying from a sudden heart attack. At 1:40 o'clock the Emperor and Empress and other members of the royal family were summoned to the bedside. The Dowager Empress has been suffering from angina pectoris. She was born in 1850.

VICTORY FOR LENOX.
Railroad Commission Reduces the Price of Commutation Books Between Suburb and Los Angeles.
(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, April 8.—Effective twenty days from date, the Los Angeles Railway Company, by order today of the State Railroad Commission, must sell thirty-five family commutation books between Lenox and Los Angeles for the sum of \$2.50 as heretofore. The commission held that the old rate was unreasonable and unjust.

her to take Fruitola, a California remedy recommended for these symptoms. She bought a bottle and took it at a dose, which is the way Fruitola is taken. Now Mrs. Breasale writes she is entirely well, and whether she had gall stones or not, she has not claimed, she is better, and naturally attributes her recovery to Fruitola. Thousands of other sufferers from gall stones under similar conditions share her opinion.

It is remarkable the relief Fruitola gives in symptoms of this kind. It has also been found very valuable in jaundice, which often follows these attacks. In chronic constipation, of the kind that defies the ordinary laxatives and purgatives, Fruitola has often proven effective because it gives a thorough cleansing-out to the stomach, liver and intestines. It has an additional advantage in that a bottle is taken at a single dose, so results are quick and decided. Fruitola is prepared only by the Pinus Medicine Co., Monticello, Ill., for whom this is published. The directions tell in detail just how to take the remedy and what its uses are.

"Stock Completely Sold Out"

That will express the condition of affairs as regards the new Encyclopaedia Britannica in a very few days. Meanwhile immediate delivery following receipt of order can be promised, but at the present rate at which the work is selling, the stock on hand will not last longer than the 21st of April.

In the case of most things that you need and are thinking of buying, it is possible to assume the leisurely attitude and rest upon the comfortable assurance that "some day" will do just as well as today. Unfortunately, this does not apply to things for which the demand is greater than the supply.

Eight times it has been necessary to print the new Encyclopaedia Britannica, and some 16 presses have been constantly running for more than two years. Very soon there will be a shortage of stock, due to the announcement that the present extremely favorable prices can no longer be continued. The daily volume of business has doubled within a month, because many of those who have been promising themselves that they would buy the work "some day"—have decided to translate intention into action—and are registering their orders now, so as to be certain of immediate delivery of the books.

THE SUBSCRIPTION LISTS ARE SOON TO BE CLOSED
A GREAT OFFER IS ABOUT TO END
YOUR LAST CHANCE TO PROFIT BY IT HAS COME
BUT ONLY IF YOU ACT AT ONCE

THE above four headings, describe in bold outlines a situation that has a personal interest for every thoughtful reader of this newspaper; namely, the fulfillment of the published announcements that have appeared from time to time—

(1) That the present low prices of the new Encyclopedia Britannica were "temporary";
(2) That these low prices were designed to effect a large and rapid sale among all classes of book-buyers.
(3) That because of the large investment necessary to make this entirely new summary of all human knowledge, a legitimate financial return could not be earned unless future buyers were made to pay higher prices, and

(4) That a definite date would be announced after which the present low prices would be discontinued and a new schedule of higher prices would go into effect.

In England the prices were increased on December 20th last, and the work is now selling there at the advanced prices, but owing to the much larger territory to be covered in this country and in Canada an extension was granted by the Syndics of the Cambridge University Press until May 28th.

Until then, therefore, anybody can buy the new Encyclopedia Britannica direct from the publishers and pay much less money for it than he would pay if it had been sold in the usual way through booksellers.

The Price Increase—from May 28 next
Cloth \$29 more
Sheepskin \$36.50 more
Suede \$45 more
Full Morocco \$50 more

Only a Short Time is Left
to take advantage of the present low prices. The Last Chance the public will have to get the most authoritative, as well as the most comprehensive work of universal reference ever published, before the advance in the prices as above, is now only a matter of a few weeks.

More than 58,000 sets have been sold. All classes have bought it. Scholars and business men, millionaires and wage-earners; farmers, intelligent mechanics and store-keepers have praised it as no other work of the kind was ever praised. It is a book of universal appeal and universal usefulness, and all you need pay now to get the complete set, with a bookcase, is \$5.00.

A Book for Everybody—On Terms for Everybody
THE new Encyclopaedia Britannica is not a rich man's book, but it is a book primarily for all ordinarily intelligent persons of moderate means. If it were published for the rich only a very few copies would be sold, the venture would not yield a profit, and the price for a set would run into thousands of dollars. At such a price its publication would serve no useful purpose. It would, in fact, defeat the very object for which the book was originally designed, namely, the dissemination of useful knowledge among all classes of the public. The contents of this new 11th edition, as of all previous editions, since the first (Edinburgh, 1768), have to do with the vast body of essential knowledge upon which the activities of our busy world in every direction are based. The province of the book is world-wide, and its appeal is, therefore, to every class. No one need feel that he cannot buy it—the monthly payment system points the way. \$5.00 in cash with the order will bring you the 29 beautifully printed volumes on India paper and bound in leather.

A special display of each style of binding and each style of case is shown at our San Francisco office, Monadnock Building (Telephone, Sutter 2826.) You will not be urged to buy if you call.

THE ENCYCLOPAEDIA BRITANNICA
Head Office, 120 West 32nd Street, New York

if Sent at Once Will Secure For You One of the Few Remaining Sets Before the Price is Advanced

If You Do Not Already Know About This Great Work, You Should Send Your Inquiry Now.

THE safest way to make sure of getting the book at the low price is to order at once.

The new Britannica has been so widely advertised and is already in so many hands that you very probably know all you need to know to order now.

But if you still need information, you should send promptly for our large illustrated prospectus. The prospectus will be sent you by mail on receipt of your inquiry, together with full details of bindings, prices, the easy terms of payment now available, and specimens of the genuine India paper used in this edition.

You should, however, send the inquiry form today, for if you let the matter slip now you'll run the risk of being too late to benefit by the present low prices and easy terms.

The sooner your order is placed, the sooner you will get the book and benefit by its use.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Davis County Society Election.
The Davis County (Iowa) Society will meet in State Education Hall on next Tuesday evening, for the purpose of completing the social organization and electing officers.

To International Congress.
The following delegates were appointed yesterday to represent the Los Angeles Chamber of Commerce at the sixth international congress of Chambers of Commerce to be held in Paris in June: George I. Cochran, W. H. Davis and J. D. Sain.

Registration Figures.
At the close of business yesterday registration figures in the office of Registrar McAleer stood as follows: Republican, 22,193; "Progressive," 15,569; Democrat, 37,683; Socialist, 16,452; Prohibition, 16,734; not stated, 29,569; Independent, 216. Registrations for yesterday, 488; total to date, 22,321.

The Invitation of the Wilmington Chamber of Commerce to participate in the celebration next Saturday was accepted yesterday by the Merchants and Manufacturers' Association and Marion R. Gray, F. A. Bowles, M. R. Newman, Alexander Beyer and George Fuesenot were appointed a committee to represent the organization.

Store Changes Hands.
Announcement was made yesterday of the transfer of the Sweetland Candy Shop, at No. 795 South Broadway, to Allegretti, of chocolate fame, for a consideration of \$14,000. J. J. Joplin, for many years secretary of the Chamber of Commerce of Bloomington, Ill., is the president of the new company. A wholesale and retail business will be conducted.

Warner Hires a Hall.
Adam Dixon Warner, sometimes known as "Silver Dick," has hired Blanchard Hall for every Wednesday night for the next several months, he says, and will lecture there once a week, beginning next Wednesday evening, on the liquor traffic. Warner formerly knew a good deal about liquor and he says he has not forgotten it. He further offers to answer in ten minutes all the arguments any enemy of prohibition can set out of his system in half an hour.

Gen. Wood Concerns.
A letter from Maj.-Gen. Wood, chief of the general staff, U.S.A., was placed before the Chamber of Commerce directorate yesterday acknowledging receipt of resolution adopted by the Chamber of Commerce relative to strengthening the army and utilizing the military resources of the United States, stating that he very much appreciates the interest which the Chamber has shown and stating that he concurs entirely in the necessity for an increase in the infantry and field artillery.

Entertain Past Presidents.
Mrs. William Fredericks Spreen of No. 1431 Constance avenue, entertained the Supreme Parlor No. 1 of the past presidents of the Grand International Auxiliary of the Brotherhood of Locomotive Engineers at the Chamber of Commerce yesterday. Twenty past presidents of the organization were present: Mrs. J. C. Anderson of Milwaukee, Mont.; Mrs. M. Kolberg of Marshalltown, Iowa; Mrs. W. Newbill, Mrs. S. M. Collins, Mrs. L. W. Raymond, Mrs. J. B. Neale, Mrs. E. S. Kimball, Mrs. E. A. Ryan, Mrs. Mary E. Lewis, Mrs. A. Houlahan, Mrs. E. G. Lynch, Mrs. J. J. Norton, Mrs. E. S. Jordan, Mrs. E. Schaffner, Mrs. E. Wobensmith, Mrs. J. W. Wobensmith, Mrs. J. Finlay and Mrs. Spreen. The decorations were in lilac, and after the luncheon the party was entertained at the theater.

Passover at Temple B'nai B'rith.
The Passover, the festival of spring and of liberty, which begins tomorrow evening at sunset and continues until sunset of Friday, the 17th inst., will be ushered in at Temple B'nai B'rith tomorrow at 8:30 p.m. The service will be short, and in the nature of an introduction. The principal service will be on Saturday morning at 10 o'clock. Dr. Hecht will be in charge of both services, but will preach only on Saturday morning, taking for his subject, "Freedom's Poem." The music at both services will be largely traditional and will include Dudley Buck's famous anthem, "Arise, Shine," and Cantor E. J. Stark's beautiful "In Distress Called Upon the Lord." The temple will be decorated with potpourri and cut flowers. Following the brief introductory service tomorrow evening, the traditional domestic service (Seder) will be held at most of the homes, where, in the circle of family and friends, the head of each family will recite the wonderful drama of Israel's progress from slavery to freedom, and explain the beautiful symbolism of the feast. In accordance with Biblical injunction the first and the last of the seven days of the Passover are observed as holy days, the five intervening days are called "Chol Hamoed," or week-day festivals. The services for the festival day of Passover will be held at the temple next Thursday at 8 p.m. and next Friday at 10 a.m.

SIGNIFICANCE NOT APPARENT.

ELECTRIC LINE INSPECTION BY RAILROAD MAGNATES.

Representatives of Eastern and Western Interests to Be the Guests of Presidents of the Southern Pacific and Pacific Electric Roads Today.

Representatives of eastern and western railway interests will meet today in amity for a trip over the Pacific Electric. The trip has considerably less significance than appears on the surface, for the eastern men who are to make the trip are representatives of the Pennsylvania Railroad Company, whose acquisition of \$25,000,000 of Southern Pacific stock in exchange for a similar amount of Baltimore and Ohio stock is an old story in railroad circles.

T. DeWitt Cuyler of Philadelphia heads the party. He is a director of the Pennsylvania, and incidentally a member of the Executive Committee of the Santa Fe. Other members of his party are Senior Vice-President W. W. Atterbury of the Pennsylvania; Charles D. Norton, one-time private secretary to former President Taft, and now first vice-president of the First National Bank of New York; Porter Norton, a Philadelphia lawyer; C. R. Lewis, a prominent architect of Philadelphia; and Allen Evans, a New York banker.

President Sprague of the Southern Pacific and President Shoup of the Pacific Electric will act as hosts. President Ripley of the Santa Fe has also been invited to be a member of the party.

"Merely wish to see what we have," said Cuyler, "and to see if there is any significance to the trip I don't know it."

Cuyler and party expect to leave Monday for the North to continue their inspection.

SILVER STAR BALL.
Police Lodge of Knights of Pythias to Hold Initial Function Tonight. Cup for Best-Drilled Company. A grand military ball will be held this evening in the Goldberg-Bosley Assembly-rooms, by Silver Star Lodge, Knights of Pythias. Preparations have been long under way and the effort will be to make it one of the finest balls ever given in the city. The committee of arrangements consists of G. T. Williams, L. L. McClary, R. S. Hamilton, W. A. Lowery and H. D. Meyer, of the local lodge, and J. O. Rorer, Commander of the California brigade and founder of Silver Star Lodge.

A silver loving cup will be competed for by drill teams from lodges of the city and outside places. At 10 o'clock the grand march at 9 o'clock will be led by Brig.-Gen. Rorer and staff, followed by Mayor Rose and the grand lodge officers. Chief Sebastian of the police department, from which the lodge recruited its members, will be the reception committee, and C. G. Lehmann, the floor committee.

SNAKES CAUSE INSANITY.
(LOCAL CORRESPONDENCE.)
EL CENTRO, April 8.—William Walters, who has been lost for several days on the desert between El Centro and Coyote Wells, was found today by a party of hunters. It seems that while lost on the desert Walters wandered into a large den of rattlesnakes and while he escaped bodily injury, he was driven insane by the fearful experiences. He imagines that he has sworn allegiance to the king of rattlesnakes and that he must pay the death penalty for any disobedience on his part to the edicts of the royal ruler. He refused to leave the stable in which he was found until told that his going away was the direct order from the royal snake.

FOOLISH TO SUFFER FROM STOMACH ILLS
What's the use of suffering from heartburn and the other disagreeable things caused by Dyspepsia and Indigestion, when we offer you the privilege of using Rexall Dyspepsia Tablets entirely at our risk, with the distinct understanding that, if they don't relieve your stomach trouble and make your stomach comfortable and your digestion easy, they will cost you nothing. If they don't do all you expect them to, we want you to tell us and let us give back your money. We know what they have done for others, and what they are made of. That is why we have confidence in them.

Among other things, they contain Pepsin and Bismuth, two of the greatest digestive aids known to medical science. They soothe and comfort the stomach, relieve heartburn and distress, promote the secretion of gastric juice and help make the bowels regular. We believe them to be by all odds the best remedy for indigestion or dyspepsia ever made. We believe you will say so, too, once you have used them. If you don't, they will cost you nothing. Sold only at the more than 7000 Rexall Stores, and in this town only at our store. Three sizes, 25c, 50c and \$1.00.

BBBUCK BLOWHEAT
NEW RECTOR ON DUTY.
(LOCAL CORRESPONDENCE.)
WHITTIER, April 8.—Rev. Frank U. Bugbee, the new rector of St. Matthias' Episcopal Church of Whittier, has assumed his duties. He succeeds Rev. Charles Stanley Mook, who resigned some weeks since to enter a large field of Sunday-school work of the diocese. The new rector comes to Whittier direct from Boston, where he has been assistant rector of the First Church of Boston. He formerly was a rector in Pomona and is well known to the Whittier church, having visited the church here.

NEW CHURCH DEDICATED.
(LOCAL CORRESPONDENCE.)
COLTON, April 8.—Palm Sunday proved to be auspicious for it marked the dedication of the beautiful new Methodist Episcopal church at Eighth and G streets, just opposite the Public Library. Morning, afternoon and evening services were held, and each church was packed not only with Colton residents, but many from out of town, the meeting at night being the largest yet held in the new church. The dedication was presided over by the various denominations bringing greetings from their respective churches. Bishop H. H. Hughes of Los Angeles preached the sermon and special music was furnished by a chorus of fifty voices with orchestra accompaniment. Mrs. H. M. Barton of San Bernardino and Mrs. Leona Williams being the soloists. The new church cost \$15,000 and is to be called the Jewell Memorial in commemoration of the one burned a year ago.

THE WEATHER.

(Official Report.)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 8.—(Reported by Fred A. Carpenter, Local Forecaster.) At 5 o'clock a.m. the barometer stood at 30.02; at 5 p.m. 29.94. Thermometer at 5 a.m. 54; at 5 p.m. 68. Relative humidity, 5 a.m. 90 per cent; 5 p.m. 61 per cent. Wind, 5 a.m. northeast, velocity 5 m.p.h.; 5 p.m. south, velocity 4 m.p.h. Highest temperature, 73 deg.; lowest, 54 deg. Barometer reduced to sea level.

WEATHER CONDITIONS.—The field of high pressure which drifted down from Western Canada now covers the weather of the United States. It brought moderate cold weather to the southern part of the Mississippi River. Forecasting rainfall over the greater part of the western district. Duluth registered a temperature of 10 deg. above zero. These figures are taken on the basis of precipitation reported from New Mexico. FAKE REFORMER GETS DRUBBING.

Speakers at Rousing Meeting Unmask Norton.

Refer to Him as the Premier Obstructionist.

Declare He's a Fanatic Unfit to Hold Office.

The mask was ripped off Supervisor R. H. Norton's official record last night by Earle E. Boothe, recall candidate for Supervisor to succeed Norton, and other speakers at a rousing meeting in Washington Hall. The meeting was held under the auspices of the Colored Republican Club. When the speakers got through with Earl's personally-conducted "reformer" there was little left of his "fake reformer" and "fanatic" class by the speakers and was classed as the "premier obstructionist" of the age. His desperate attempts, with the financial assistance of E. Toopious, to kill the salary ordinance which raised the monthly wages of several colored janitors and women attaches at the Courthouse was roundly rebuffed.

His spiteful efforts to blockade good roads building in Los Angeles county came in for a scolding from the meeting was largely attended, and when a rising vote was taken every man and woman stood up for the recall of Norton.

Boothe was introduced by Capt. H. W. Hawkins, president of the club. Capt. Hawkins is an old-time Republican and he pleaded with his auditors not only to vote for Boothe but to vote the Republican ticket this year.

The "Progressive" party is dead as a door nail, he said. "The Republican party will be returned by the sane, sensible citizens of this country who are sick and tired of Democratic

misrule. Hard times always come with Democratic supremacy. Good times follow Republican ascendancy and the record of the Republican party proves what I say.

"I don't know what Norton's politics are, but I know what his record is."

WOMEN FIGHT FOR GRIP ON WATTS PURSE STRINGS.

Miss Sarah A. Smith (left), Mrs. Cora E. Gay.

The former is the present City Treasurer of Watts and a candidate for reelection. She is an avowed "dry." Mrs. Gay is the independent candidate and has the support of the "wet" organ.

WATTS, city of perpetual turmoil, is again in the throes. This time it is the municipal election, to be held next Monday. In addition to the tickets are more or less cleanly cut on the issue of "wet" and "dry"—itself enough to start a fight on any street corner of Watts any time—the entire town is split in rival factions supporting the respective candidacies of two women for the job of City Treasurer of Watts.

The ladies have never been introduced in fact, they have never even seen each other.

Miss Sarah A. Smith, who is the present treasurer, is avowedly a "dry," while Mrs. Cora E. Gay, who is running on the independent ticket, refuses to discuss the liquor question. Miss Smith is backed by the Watts

Advertiser, which is decidedly "dry." Mrs. Gay is the candidate favored by the Watts Observer, which, while not openly a wet organ, is owned by J. S. Lane, who has never hesitated to attack the present dry administration.

"We have had two good years under the 'dry' ordinance," said Miss Smith yesterday, "and if I am elected I will do everything in my power to continue the good work. Watts must be dry and pure."

"I cannot see what difference it makes what my personal views on the question are," said Mrs. Gay, yesterday. "The voters will decide that the city's money, not the city's booze, is the issue."

This much I will say, no matter how the voters decide the liquor amendment, the Treasurer's office won't be 'wet' enough to disgrace the city if I have supervision over it."

Miss Smith has made many friends during her term of office. Mrs. Gay is just as popular. She is an interesting talker and her candor on the ticket that is called the "wet" line-up has caused the bitter family and church dissension. Mrs. Gay is a member of the Methodist Church of Watts, and after vainly striving to make Rev. George S. Madden, pastor of the church, assume other than a neutral attitude on the question, seven of the members of the church have withdrawn from the fold. Pastor Madden has stated on many occasions that he will not mix politics with religion.

The nomination of the candidates that are said to be "wet" is of itself one of the nine days' wonders of Watts. Just how, or when, or where they were selected is a mystery to the "drys," for they were lined up behind closed doors at a secret caucus. The school election held last Friday was one of the most exciting ones ever held in Watts. The "wets" had twenty autos to carry voters to the polls and the "drys" had ten. The election of the candidate backed by the Observer by a majority of 258 votes is claimed by the independents to mean a certain victory for them next Monday, as the fight was on practically the same issue.

CAUGHT ON THE FLY
BY HARRY A. WILLIAMS
gamed last season. He held his own
to an average of 2.36 runs per
game, fanned 150 with his right hand,
or approximately seven a game, and
permitted only 145 hits, while he
himself hit for a percentage of .32.
Muser is one of the tricks which
Berry has had up his sleeve for sev-
eral weeks now. It is darkly hinted
that he has a few more mysteriously
concealed in the same place.
Page Playing Great Game.
Among these, it is said to be an in-
sider or two. But the way things
have been going, Berry hasn't found
it necessary to fritter a brain thro,
on the infield proposition.
Last fall, and even later, it was
opined that Los Angeles would find
itself under the necessity of invest-
ing in a new second baseman.
Since March 31 such thoughts
have largely perished. Page is pur-
suing the game of his sweet young life
at that position, and no symptoms
have developed to indicate any weak-
ness there.
To date he has handled fifty-four
chances with but one slip. He com-
mitted his first error yesterday in the
ninth, but largely because he was
arm and leg weary from hitting the
ball and circling around the base.
At the bat he is improving perpet-
ually. Yesterday, in six trips to the
clout cupboard, he fashioned four
singles and a home run.
Bill was given hardly a fair shake
last season. As things are now going,
he is one of the most valuable men
on the club.
Thinks McArdle O.K.
Fritz Pabst has enlisted among the
McArdle admirers. Fritz became
convert in San Francisco Sunday af-
ternoon, when Mac pulled off a couple
of plays without which the large end
of the score would have rested on the
wrong side of the ledger.
Pitchers Still Undependable.
The fans have been compelled to
look upon some fuzzy baseball the
past ten days, but for every weird ex-
hibition there have been one or two
good ones.
It is almost always thus in April.
Comparatively few pitchers strike a
consistent stride before May. April, as
a rule, is dedicated to sore arms and
lack of control. Dillon felt compelled
Tuesday to send in Hawkins because
his other reivers were overworked or
felt a soreness in the region of the
elbow. Yesterday, Hogan made three
changers during all Tom, and his
pitchers looked alike to the Ang-
els.
About all that a manager can do

at this season of the year, is to send
the whole bunch out to warm up,
toss a coin and trust to luck.
Believe me, some of these com-
pulsive batting averages will begin to
dwindle along about May 1, and there
will be a corresponding picking up
in the pitching department.
Advance Pitching Programme.
Here is the advance pitching slate
for the Tigers. Deacon, left-hand-
er, today; Kieffer, right-hand-er, to-
morrow; White, left-hand-er, Satur-
day; Smith, right-hand-er, Sunday
morning; Hitt, left-hand-er, Sunday
afternoon.
Charley Chech is about due for the
Angels today, while Jack Ryan is
also available.
However, these are perilous times
for pitchers, and advance selections do
not always stick.
Jack Atkin Going East.
Jack Atkin, famous as the man
who gave Sacramento a runner-up
observed yesterday's game at Wash-
ington Park in company with Cy
Myrick.
Atkin, one of the most ardent fans
in the country, still admires baseball,
but purely from the standpoint of a
patron of the box office. As far as
is known, he no longer experiences
any yearning to be an owner.
Atkin gave Sacramento a fine ball
club. At the same time he separated
himself from a lot of money—more
probably, than he took away with him.
Jack will leave for New York Sat-
urday to return to his first love, the
pool. He will divide his time the
coming summer between this country
and Canada; likewise between
making a book and footing the stable
bills for a string of banglows.
Sacramento to Get Players.
That Wolverton will receive as-
sistance from Detroit in the way of
players that will make Sacramento
a decided factor in the Coast League
race, is the belief of Atkin.
Atkin, in fact, expects to stop over
in Detroit on his way to New York
and consult with Jennings in regard
to reinforcements for the Wolves.
He intends to do this purely because
of his friendship for Wolverton.
"But for the unsettled conditions
resulting from the activity of the
Federal League, Wolverton would
have secured the needed men from
Detroit before this," said Atkin.
Later, he is certain to get a high-
class infielder from that club. I be-
lieve that he has signed Mohler mer-
ely to bridge over a temporary
Wolverton. Wolverton will have the
Sacramento club fighting around the
bep at the finish."
Lorenz Merely a Fan.
Friend Lorenz has been observed
lurking around Washington Park for
a couple of days now. A year ago
Guerens was guarding the main en-
trance to the ball park, but an en-
largement of private interests pre-
vented him from signing a contract
for the present season. He has been
succeeded by George Banks, and, be-
lieve me, George is a regular Cer-
berus. He has the "monochromatic"
made up on a barrel yelling for help.
On the Bounding Willow.
Tom Dawson, one of the several
men who claim to be the Christopher
Columbus of Jim Scott, has returned
from a week's cruise on his dad's
yacht at Long Beach. When it comes
to complexion a lobster hasn't any
thing on Tom, when in appearance
he is actually porcine. Ploughing the
raging main is a form of diversion
that seems to agree with him.

RECRUIT'S CURVES TOO MUCH FOR OAK SLUGGERS.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SACRAMENTO, April 8.—Ray
Kremer, bush-er, beat Art Devlin's
Oakland crew today when he made his
debut in professional baseball.
With a continual drizzle of chilly rain
and about everything in the weather
line conspiring to make it the toughest
kind of a test for a youngster
pitching his first game in fast com-
pany, Kremer stood up under fire
like a veteran, held the Oaks to five
hits and, without a couple of errors
behind him, would have held his op-
ponents down to one lone run. But
the errors crept in and helped the
visitors to two more runs, which
served to lessen the sting of defeat.
For the Wolves landed on two of
Devlin's three pitchers for bunched
hits in three innings and a 5-to-2 vic-
tory, ending up the series at one .11.
Kremer walked five men, but in the
pinches, despite the weather and a
slippery ball, he was steadier than
any of the three seasoned twirlers
whom Devlin trotted out. And he
held his own in the fire of the
hottest kind of stuff handed out by
the Oaks delegated to the side lines
for the express purpose of getting the
youngster's goat.
Those Oaks coaches did their work
well, but in vain. Kremer finished
with his colors flying. A walk and
an error put him in a bad hole in
the ninth, the Oaks putting over two

GREAT SEASON FOR SEA FISH.
A launch party, one of whose
members was Tom Dawson of
this city, returned from a fish-
ing trip off Long Beach yester-
day, reporting the first run of
albacore of the season. Fifteen
fish were taken.
The albacore usually begin to
run about three weeks later.
Other indications convince the
fishermen that we are to have a
great spring and summer for
deep-sea angling.

flat-footed. This left first uncovered,
and all hands were eager to square
scored both of them with a two-base
rap to left. Meek fled to Carlisle.
Walter making the catch in Watta.
Woltes was trapped between third
and home on Harper's drive to Mc-
Ardle. Johnson sliced a single to
right, putting Harper on third. A
double steal was started, and went
through when Elliott tossed the ball
high to Henley. Harper taking the
plate and Johnson second. Metzger
walked.
sterling Brooks signalled his
return to the game with a drive to
center that scored Johnson, and left
Metzger on third. Perritt being a
reasonable man, drove harmlessly
to Hosp.
The crushing of "Cack" was re-
sumed with vigor in the second. Mag-
ger, again in the full possession of
his remarkable setting facilities, rap-
scaped a single over Hoop. Page
again put one over on the Venetian
infielders, putting a perfect hunt down
the first-bases line and beating it in
a stride. Meek killed off Henley
with a line drive to right center, that
scored Magger and Page, and per-
ched Wolter on second. Enter
Smith.
Harper sacrificed on the new-
comer. Johnson fled to Carlisle in
deep left. Wolter scoring after the
left-field fence. Meek trotting to
third on Carlisle's throw to the
grand stand. Metzger made the third
out on a rob to Leard.
Brooks's double, and a single by
Page, that sped directly between the
legs of Mr. Smith, gave the Angels
a run in the third and the inning an
air of respectability.
The fourth, however, was more
lowdown. McArdle's square and
Meek. Harper tried to sacrifice him
to second, but it was no use, Hoop
throwing for McCord. Metger, who
Harper stole the keystone sack. He
went to third on Johnson's drive,
Hoop's single throw, when in a
Franz and Harry got mixed up in a
little tackle and huck stuff. Leard
charged in on Metzger's grounder,
only to take a base and a hot
and skinned over his head. Harper
and Johnson piled in on the hit.
Brooks's single, and a right to
Perritt filled the bases. Magger
drove the ball into a two-ply kil-
ler. He had the "monochromatic"
made up on a barrel yelling for help.
Calvo went into left field in lieu
of Harper in the second half of the
fourth. Dillon yielding to a general
desire of the fans to get a squirt at
the Cuban.

REAL COMEDY.
The fifth inning was about the
funniest thing ever seen outside of a
dime museum.
With two down, Smith passed
Meek. Calvo, whose finger owned a
sorghum mill down in Cuba, was con-
siderably applauded. He responded
by walking after base and that
second on a wild pitch. Johnson
here put the ball up against the
left-field fence. Meek trotting to
the circuit, with Calvo sailing on
him at every stride. Rounding third,
he was in a position to cut
Calvo's heels with his spikes.
"Little Eva" was simply running wild,
and puffing Meek. Abstein was
coaching at third, jumped out and
touched him warningly. Johnson went
clear around on the drive, avoiding
McArdle's relay by a hard slide at
the plate.
This looked like a batch of three
runs, but it wasn't. Abstein's action
in interfering with the Cuban at
third, made the final out and auto-
matically retired the side with all
the runners in motion. McCarthy
ruled to this effect, and ruled cor-
rectly. He erred, however, it is be-
lieved, in permitting Meek's run to
count, as "Little Eva" had not
crossed the plate when Abstein
touched Calvo. But what is one
run, more or less, in a million?
Johnson twisted a tendon, sailing
into the plate, and gave way to Saw-
yer in the sixth.
Los Angeles added two more in
the seventh, on Magger's single and
steal. Wolter's walk and a triple by
Calvo.
They made merry to the extent of
four runs in the eighth, this time at
the expense of Chicago. Metzger
singled infield, and went to second
on McArdle's overthrow of first.
Brooks sacrificed and Perritt dou-
bled the Ten-ton home. Magger hit
out a punt to Borton, going into first
as usual on the bridge of his nose.
Page put both men and himself
around with a home run which
brought the leg-weary Kane up
against the center-field fence. After
Wolter had singled, the side was re-
tired without further scoring, but not
until the bunch had batted clear
around.
McArdle scored the first Venice run
in the fifth, singles by himself and

STANFORD CREW IN OAKLAND CAMP.
(BY A. P. NIGHT WIRE.)
OAKLAND, April 8.—In preparation
for the annual triangular intercolle-
giate regatta which will be rowed on
the Oakland estuary Saturday morn-
ing, Stanford University's varsity and
freshman crews took up their resi-
dence in Oakland today.
Capt. Clover, under the direction of
Coach Guernsey, will row both his
crews in the morning and afternoon
until Friday.
The arrival of the Cardinal crews
gives the estuary its full complement
of contenders for the Pacific Coast
championship, the varsities and fresh-

EXCITING RACE OF NAVAL DINGIES.
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
SAN PEDRO, April 8.—The dingy
boat race between the crews on the
torpedo boat destroyers Whipple and
Paul Jones was won easily this morn-
ing by the Whipple boat. The course
was one mile and the Whipple had a
lead of fifty yards at the finish. It is
said that over \$500 changed hands as
a result of the race.
There were two men in each boat
with an oar each. Along the course
small boats with spectators from the
destroyers cheered, and the noise of
the men and the whistles from the
torpedo boats could be heard all over San
Pedro.

FLOWER SEEDS FREE TO TIMES SUBSCRIBERS
Every reader of today's Times (excepting those subscribers who are now enjoying the benefit of The Times' Rose and any other premiums) may secure six generously filled packages of seasonal flower seeds, which if planted now will flower in early summer. Or, they may be planted in the Fall, or held until next Spring.
In 1915 the Great Flower Festival in Los Angeles will exhibit some of the choicest flowers and plants ever seen in the world. In this city, beautiful flowers should be superabundant, as the soil and climate give magnificent returns for the time devoted to raising plants. All nature beckons the amateur and professional gardener to plant, beautify and decorate, so to further encourage the interest, and the growth and culture of flowers, The Times is offering for a short time only a fine selection of first, fresh stock seeds.
To secure a collection of 6 packages of flower seeds absolutely free, all that is required of you is to subscribe for The Times (daily and Sunday) for 3 months at the usual subscription price, 75c a month, and an order will be given to you for a choice of any of the following collections:

WOODCOCK IS HERO OF DAY.

Does San Gabriel Course
in Par.

Unusual Play in Qualifying
for Title.

Small Club Stars in Line for
Championship.

BY ALMA WHITAKER.

Mumphy Neville Howard Woodcock, bachelor, tall, slender and beautiful, was the blushing hero of the day yesterday, when he won the cup for the best score in the qualifying round for the Southern California championship with 143, par figures for the thirty-six holes.

When you play to par you are entitled to regard yourself as amongst the golf gods, and when you do it consistently for thirty-six holes, honor and glory are yours. Woodcock, partnered with W. K. Jewett of Annandale, played the star match on the San Gabriel links yesterday, and when he holed out his last putt in par on the green green he was cheered so the echo by a hundred on-lookers.

He made a 75 in the morning round—49 for the first nine, rather discouraging. But the second nine was all 4's, with the exception of a 3 for No. 14, par 4. A happy sprinkling of 3's for the first half in the afternoon gave him a 36, and he finished in par 77 for the second half in spite of two bad holes.

Will Bacon made second best score with 151—he, too, enjoying the thrill of a 75 for the afternoon round—33 for the last nine, including a 3 for the last hole on the green. He also had the only 2 of the day—for No. 15, in the morning round, a par 4.

That 23 for the last nine was equaled by Morris Phillips of Redondo, who made a glittering 7 in the second round to compensate for a 59 in the morning. Five 3's in that star nine, four of them in succession for the last four holes.

Harry Patten of Riverside was third man in the qualifying round, maintaining his recent victorious showing, so that three of the smaller clubs—San Gabriel, Victoria and Redlands—were each represented by first-class play in Southern California's most important golf event.

CHAMPIONSHIP SIXTEEN.
Those to continue at match play for the championship sixteen will be paired as follows, the qualifying score following each name: H. N. H. Woodcock (143) and Jack Niven of the Los Angeles Club (153); E. S. Armstrong of the Midwick (158) and L. A. Francis of Annandale (164); Carlton Wright of Annandale (159) and Jack Jewett of Los Angeles (164); Harry Patten of Riverside (167) and Michael McLaughlin of Annandale (162); Dr. West Hughes of Annandale (157) and Morris Phillips of Redondo (164); R. C. Gertz of Annandale (159) and E. H. Bagby of Los Angeles (165); W. K. Jewett of Annandale (165) and Robert Osburn of Victoria (164); Will Bacon of San Gabriel (151) and Judge Frederickson of Los Angeles (168).

Partners may make their own arrangements for match play but it is necessary to play 36 holes today before sundown.

Players were loud in their praise of the course, which is in delightful condition. The president of the club, F. Q. Story, was at hand to welcome the many visitors, and two members of the Green Committee, Woodcock and Lee Stephens were overwhelmed with compliments on account of the easy and comfortable arrangements that had been made for everybody's happiness.

SEATON STICKS TO BROOKLYN.
(BY A. P. NIGHT WIRE.)
CHICAGO, April 8.—Pitcher Tom Seaton will be with the Brooklyn team, and with Walter Ward and Manager Bradley, is now on his way to join the Ward team, according to the President of the Federal League. Gilmore made his announcement today after a long-distance talk with Ward at Guilford, Mass. According to him, the dispute has been settled to the satisfaction of all concerned.

The pitcher had announced that he would play with none other than the Chicago team. Gilmore, it was said, will insist that the pitcher stay with Brooklyn three years.

NUTMEG FAIR PRICES ANNOUNCED.

EMPRESS THEATER TO HAVE PICTURE PRELUDE.

BY GARDNER BRADFORD.

Pictures at the Empress from 11 o'clock until the regular show starts, and, during the afternoon, every seat 10 cents.

This is the bombshell which Deane Worley hurled into the popular-priced vaudeville field yesterday, adding that all this will begin on Monday.

This arrangement is just for the summer months, the new Empress slogan henceforth being "come in from the sun." At night, customary routine and prices will prevail.

The idea sounds all right, and certain it is that there are thousands of people who will be tickled to death to have somewhere to go between 11 and 2 o'clock in the afternoon.

Now if we had some place to go between midnight and 3 a.m.—but that's another story.

Remember Charley Mack, who bartered his way with marked success through "Tik-Tok," "Rita" and "Pretty Mrs. Smith." He is at Pan-tages this week, in Harry Girard's act, and all because he happened to be in Mark Ellis's studio when Girard rushed in three wild-eyed looking for a singer to replace a member of the cast suddenly taken ill.

Honest, I hated to do it, and am still conscious-stricken, but when I

I am more canvas, and not in reality what I seem?

"It is true that my predecessors in this Bunk (I mean Burk) show were real ice. But they had a lot of trouble with them. They showed a tendency to softness if the day was warm; they wanted to plunge into a melting mood, dissolve in tears, as it were, and wander away into puddles.

They never played the part twice alike; sometimes they were cool and frigid; again, they were actually sloppy. Then, too, they had a tendency to shrink from the hard work; now and then, they were too big for the role, and then they'd become too small; you couldn't depend upon them at all.

"They tried to be natural, and in this Bunk (excuse me, Burk) show, you aren't doing anything naturally, especially at night—it is disastrous and shows up the rest of the cast too completely.

"So they had to eliminate the real ice, and a sign painter with an eye for the artistic created me. And I have been on the job so long now that I am quite the expected thing.

"Of course I'm lonesome, there being only one of me in the cast, where they ought to be a river full. But as Eliza can only appear on one cake of ice at any one time, the Bunk (there I go again; of course I mean Burk) management thought it would be economical—and they are strong for that—to have only one cake.

"Besides, it prevented any professional jealousy; any frozen faces between me and other cakes of ice and made for peace in the family. You see, there are none of those professional, actorial, temperamental heart bickerings in our aggregation; there are only me and the dogs to get the feeling, and as I have no rivals, and the dogs can be appeased with a bone apiece, it is easy.

"Of course the actors get bones, too—several of them every week. If the going's good, but their bones are of another sort. Besides, they are not actors, so of course can't have temperaments. I have temperance, but that's another story. So I don't get any bones.

"But Bunk (eh—eh—Burk) says I'm the most useful member of his aggregation. You can have a Tom show without Uncle Tom, or Eliza, or Simon Legree, because voices off stage sometimes play these parts better than the men or women do, and you can get along without bloodhounds—don't we? But you've gotta have the cake of ice; that's the Tom show trade—no—no, not Marks; I said mark—and it wouldn't be a real Tom show if I didn't appear for Eliza to escape on.

"Besides, I am also the cheapest member of the cast; I don't get any salary, any transportation, any feed; I work at every show, never miss a performance, always rock at the right minute, and house the dogs when not otherwise engaged. So you see, I really am the keystone of the Bunk (I should say, Burk) arch.

"Of course, I'm glad you had sense enough to interview me, the real and only star of this Tom show. Most reporters want to talk to Little Eva, or Eliza, or the bloodhounds, and some actually prefer to chat with Simon Legree or Uncle Tom. They don't know the innards of a Tom show at all.

"A real Tom show, like this one, consists of a cake of ice—phony at that—and a lot of advertising. And how are you going to advertise a real Tom show without the cake of ice? Giddap!

"Yes, thank you, I'll be glad to see myself in the paper, and I assure you I'll melt with joy over your story. Bunk (beg pardon, Burk; will, too—only he'll be hot under the collar, and have cold feet, while I'll be warm at heart, if I do present a congealed exterior. Good by!"

The Scottish cup association football ball will be played on April 11, and the English cup final on April 23.

WOMAN AND THE LAW

Editorial.

By Dr. Anna Howard Shaw
President National American Woman Suffrage Association.

It has been said that Dr. Shaw has no respect for the law. She has also been accused of encouraging militancy. Her arguments, as she gives them in this editorial, show the fallacy of such charges, while the soundness of her message would appeal to even the Anti-Movement.

ASHES OF DESIRE

Story.
By James Hopper.

To be able to graphically and clearly suggest many things in a few lines was the gift of De Mafusant. This talent is evidenced in Mr. Hopper's story, which tells of a man who permitted a supreme moment in connection with a great love to pass out of his life. After twenty years the sight of the lady's name sends his mind back and the big question "If" is the keynote of his reminiscences. It is an unusual story of heart throbs.

MY SKIRMISH WITH MADNESS

By Morgan Robertson.
Illustrated by Oscar Cesare.

Just one look at the drawings which illustrate this article is sufficient to create an eager desire to read it. And like the illustrations, Mr. Robertson's experiences can be gone over again and again. Each time a new and amusing situation is sure to present itself. There has never, perhaps, been an experience equal to Mr. Robertson's. Because of his belief that he was bordering on insanity he betook himself with his remnant of sanity to the Psychopathic Ward of the famous Bellevue Hospital. The details of his confinement are excruciatingly comical. At the same time there is an undercurrent of pathos for the miserable and hopeless cases and a glowing tribute to the keepers for their patience, strength and kindness.

THE PRINCE OF GRAUSTARK

Serial Story.
By George Barr McCutcheon.

The plot in this installment doesn't exactly thicken, but the amusement does. The strong, independent American red blood that flows through Prince Robin's blue veins has begun to assert itself, and it would seem as though there were fireworks ahead for our self-confident Millionaire Blithers.

AS LEANS THE TWIG

Cartoon.
By Anthony Euwer.

This cartoon and the lines which it decorates are so good-naturedly humorous and clever that even the subject of it—Secretary Bryan—has a laugh in store for him.

VILLANELLE OF WASHINGTON SQUARE

Poem.
By Walter Adolf Roberts.

Beautiful lines inspired by the green-robed Spring which came to Washington Square one April night.

The Cover Design will be appreciated by even those devoid of humor. It is grotesque in its treatment, but so cleverly done that it is a work of art. It is also timely, as it appears when the Easter fashions are given their first outing.

The Pacific Outbreak. ESCAPE FOILED BY SHARP EARS

Folsom Prisoners' Plot Over-
heard by Guard.

Lives of Ringleaders Saved
by Quick Retreat.

Barnes Will Recover Though
Shot Through Lungs.

(BY A. P. NIGHT WIRE.)

BACHAMUNTO, April 8.—Percy Barnes, one of the five convicts who succeeded in battering down his cell door at the Folsom prison Saturday afternoon, when thirteen "incurables" made a desperate attempt to gain freedom, will recover from the bullet wound through his lungs. Barnes was the only convict who escaped from his cell to survive the riot and accurate work of the prison guard.

The bodies of Jose Lucero, Earl W. Spry, Raymond Blade and Norman C. Hair, who were almost instantly killed by guards as they rushed from their cells, have been buried in the prison grounds.

The attempt of the thirteen to break Saturday afternoon rivals that of Folsom break of 1903 in its desperate character and not since that time has there been such a slaughter of convicts.

REAL INSTIGATORS.
It is believed by prison officials that John Rogers, a second-term convict serving ten years for burglary from Sacramento; Mike Ryan, a second-term serving eight years for burglary in Tulare county, and Thomas Murphy, serving fifteen years from Los Angeles for burglary, were the real instigators of the plot. These convicts were older and more hardened criminals than the others in the break.

Because of the crowded conditions of the prison, Warden Smith was obliged to remove thirteen men from the military cells within the prison walls. Solitary confinement with bread and water is the punishment reserved for convicts who repeatedly break rules.

A TIGHT CROWD.
Besides fighting at the dinner table, resisting the guards and being insolent, all of the men congealed in the criminal insane building, commonly known as the "hangout," had created such disturbances as to become unbearable. Shouting, cursing and yelling at the top of their voices, the men had kept the guards and other prisoners awake day and night.

Some of the convicts had been in the quarters more than a week. Some of them had only been taken there two days previously to the actual break.

PLANT DISCOVERED.
Breaking new lines through the prison walls, the guards and inmates were looking for the plant. Just when the break was arranged it was known. It is believed that the convicts had been plotting for some time. The first inkling of the plot was when Guard T. F. W. looked Saturday afternoon. He heard the word passed from cell to cell that the dash for liberty was to be made soon.

Anglin was alone in the corridor at the time and was armed only with a pistol. He called Guard T. F. W. and he telephoned to the captain's office at headquarters. The guard brought out Guards T. F. W. and Edward Weisbach.

BARNES' STATEMENT.
The statement of Barnes to Coroner Dornan, taken at the coroner's office, was taken back to the coroner, where it was taken as an attempt on his part to shield himself and the other convicts. Hair, had no weapons, but used as a better defense against the guards than the other convicts. Barnes waited for the guards to break the cells and wait for the guards to come and take us out," he said. "We intended to put up a fight or to stay in. Barnes to Coroner Dornan, taken at the coroner's office, was taken back to the coroner, where it was taken as an attempt on his part to shield himself and the other convicts. Hair, had no weapons, but used as a better defense against the guards than the other convicts.

The shooting of the first to break doors, however, warned the guards that the regular guard was not reinforced. They stopped and were easier of their fellow-convicts to their fate.

Through the dead convicts were the less desperate of the thirteen conduct stamp them as among the most incorrigible prisoners in the prison.

THE FRONTIER KILLING.
Recent Episode at Yuma, Ariz., and Others.
YUMA, Ariz., April 4.—A killing which had been long in the making, occurred here last night, when W. P. Moore, a blacksmith employed in the Yuma prison, shot and killed a guard named George. Moore, aged 48 years, a native of Georgia, entered the prison in 1903 and stole a horse from it. He was sent to the prison for a year and a half for his crime. Moore had been in the prison for a long time and had a reputation for being a trouble maker.

A trumped-up case was filed with immigration officers... When these counter-charges reached Washington the usual prompt order of deportation was not forthcoming, and it has not yet been forwarded. HEIRESS ACCUSES TWO MEN.

Detective Says Her Flight Is Result of Plot to Get Mother's Consent to Marriage.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN FRANCISCO BUREAU OF THE TIMES, April 8.—Pretty 17-year-old Helen Hume, daughter of the late Joseph Hume, one-time millionaire salmon packer, and Mrs. Bessie Hume, who lives at the Windsor apartments, in Bush street, is under the care of her mother and a physician today as the result of the nervous strain consequent on her flight from the complaint that has resulted in landing in jail Samuel Leibman, a tailor, 21 years old, living at the Windsor Hotel, and Charles Anderson, 23 years old, a taxicab driver.

The men are charged with an offense similar to that with which Maury I. Diggs and Walter Gilligan are charged by Miss Ida Fearing.

According to J. W. Cowart, a private detective, who collected the evidence, the case against both men is conclusive and Anderson has confessed.

Leibman denies the charge. Miss Hume is an heiress, who, on her eighteenth birthday, will come into a fortune of \$20,000 left her by her father, Joseph Hume, one of the founders of a big Alaska packing company. In addition, she has an income of about \$100 a month.

"According to the evidence I have collected," said Detective Cowart, "Leibman's object was to force the girl's mother to consent to his marriage, which he could get control of her fortune."

"I know, too, that he advised the girl to turn over to her mother \$50 a month of her income and let him put the rest in the bank for her."

"Leibman met the girl about six weeks ago, while she was on her way to a drug store. Miss Helen is convinced and knew nothing of the ways of the world. He plied her with benedictine, telling her it was only a soft, sweet drink."

"As for Anderson, who comes of a prominent family, he met the girl at the beach and invited her to take an automobile ride. I have had the men and the girl shadowed for weeks and know everything that happened."

Leibman and Anderson are both in the City Prison, being unable to raise the \$10,000 bail required for release. Their cases are set for hearing April 14.

The arrest was made by Detective Barron, acting under orders of Detective Redmond, head of the white-slave squad.

BRIDE KILLS HER HUSBAND.

Young Arizona Woman Declares He Offered Violence When She Started to Leave Him.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

PHOENIX, (Ariz.) April 8.—About midnight last night Mamie Wright Mulanax, aged 19, shot and killed her husband, Claude, in their home, near Ingleside, when opposed in talking away her effects. She alleged that she had been compelled to abandon the man through continued abuse, and that she was offered violence when she tried to leave. That the killing was premeditated is indicated by the fact that the woman had sent away for a revolver seven months ago at Columbus, O., following the discharge of Mulanax from the army. They came here a month ago from St. Louis, where Mulanax worked on a street railway and where she claims he forced her into a shameful life.

SHOT BY MATCH LIGHT.

Texas Doctor Kills Sugar Foreman at Temple After Awakening Him in the Bunk House.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

PHOENIX, April 8.—The third murder in thirty-six hours in this vicinity was committed at daylight this morning at Temple, where Dr. L. E. Wiggins of Shelby county, Texas, killed Tap Booth, foreman of a sugar-cane planting gang.

Wiggins, who had come directly here for vengeance, found his man asleep with other workmen in a bunk house. Identifying him by the light of a match, Wiggins aroused his prey, permitted him one look and then shot him five times through the head and body. Wiggins then drove nine miles to Phoenix and surrendered himself, justifying his deed on the ground that Booth had ruined his girl wife and broken up his home.

Booth was warned that Wiggins was on his trail, and was sleeping with a pistol under his pillow.

EXAMINER KEYSTON RESIGNS.

STATE CIVIL SERVICE.

(BY A. P. DAY WIRE.)

SACRAMENTO, April 8.—George M. Keyston, assistant secretary and chief examiner of the State Civil Service Commission, has offered his resignation to take effect not later than May 15. Keyston is leaving that he may accept a position in San Francisco.

Ups and Downs of a Miner.

(BY A. P. DAY WIRE.)

SAN FRANCISCO, April 8.—Once working \$175,000, J. P. Hutchinson, more fortunate as a miner than as a speculator, was sentenced today by Judge Lawlor in the Superior Court to five years' imprisonment for having forged a draft, and then was admitted to probation.

KILLED IN AUTO WRECK.

Kansas City Woman Meets Death Near Sacramento When Her Husband's Machine Upsets.

(BY A. P. DAY WIRE.)

STOCKTON, April 8.—Mrs. W. A. Smeed of Kansas City was killed when her husband was bruised and Mrs. W. B. Smeed, who was driving, steered to the edge of the pavement to permit a heavy team to pass. In regaining the pavement control of the machine was lost.

M'Carthy's Operations.

(Continued from Third Page.)

stockholders themselves. This is best indicated by the methods employed to secure signers to an application for a receiver, which petition was disallowed by the courts. Some of those who appeared as petitioners in the receiver's action were inspired by what they believed at the time to be right.

They were led by misrepresentations of John A. Flahive and others acting for McCarthy, and they are now chagrined that they permitted the use of their names to aid the kind of warfare conducted by McCarthy and his men. Some of the signers say that pressure was brought to bear on them and that many kinds of misrepresentation were made to them to induce them to sign.

We find, in brief, that McCarthy's first efforts were to compel the payment of a sum of money by the former board of directors; that, failing that, he resorted to threats to coerce those officials of the company and in the later put some of his threats into practice by spreading reports to injure the credit of the company and the bank with which it was associated; that he has continued his attacks against the present administration as a last desperate resort to gain his ends; that he is not working in the interests of the stockholders but against them; that the formation of the Stockholders' Protective Association, of which he was the organizer, was actually so far from being a concern, solely for selfish motives.

We desire at this time to renew our expressions of confidence in the present board of directors and in the ultimate success of their efforts to put the company on a sound basis that will protect the stockholders against loss. We are convinced that the company has great and valuable resources and that the policy of the directorate, if permitted to continue unhampered, will so restore the fortunes of the company that the market value of the stock will be very much higher than it is now quoted. We appeal to all stockholders of the company, for the sake of their own interests and for the sake of the company, to support the men who have the ability, the standing and the integrity to protect the company, and to oppose, with whatever power they may have, the influence exerted by men who are seeking self-interest alone.

[Signed] A. J. STAMM, CLIFFORD A. FULLER, CLARENCE E. COWART, HENRY W. SCHILLINGER, Chairman.

MAY NOT DROP IT.

Juvenile Officers Go Deeper Into Alleged "Strip Poker" Party and Complaints May Be Issued.

Juvenile officers of the city and county held a consultation yesterday over the principals in the "strip poker" party that is alleged to have occurred in the house at 1281 Twenty-third street, Monday night, when the participants were arrested.

Investigation of the past of some of the girls in the case, it was charged, show that their records have not been of the best. It is alleged that more than one is now on probation.

Policewoman Gilbert reported yesterday that she could find no record of the marriage of Miss Dorothy Dean, which was alleged to have been the motive of the party.

The girls were notified to come to the Central Police Station yesterday, but did not do so. Juvenile officials announced last night that they will probably file charges of delinquency against three of the young women; that, when a thorough investigation of the incidents of the evening is concluded, the men involved will be prosecuted if sufficient evidence can be adduced.

HITS THE KNOCKERS.

M. & M. Adopts Resolutions Condemning False and Malicious Reports Circulated.

The directorate of the Merchants' and Manufacturers' Association adopted yesterday the following resolutions unanimously:

Whereas, for some time past false and malicious rumors have been circulated affecting the commercial integrity and financial standing of some of the old established and best known firms in this city; and

Whereas, the source of such infamous reports cannot be traced to the authors who appear to have no regard for truth and decency;

Therefore, be it resolved by the board of directors of the Merchants' and Manufacturers' Association, that we hereby publicly denounce, as absolutely untrue and without any foundation of fact, the rumors that are mentioned in financial difficulty, and that for the preservation of the commercial standing of this city such rumors be most emphatically denied and, if possible, the men involved in such falsehoods, if known, be exposed and brought to justice.

TAKES THE EXAMINATION.

Democrat Who Accepted Minor Job for Harmony's Sake Must Quit for the Place.

That ancient and honorable Democrat of the well-known name of Harris, who for several months has been assistant custodian at the Federal building, has been compelled to measure swords with thirty-eight other good men and true who want the job.

Yesterday a civil service examination was held for the position, at a salary of \$1400 a year, and Harris was one of the eligibles from which a selection had to undergo the examination. Three of the highest in the examination will be certified to by Collector Elliott, who has the appointment, and if Harris is one of the three, he will likely get the place. If not, he will be out in the cold, so to speak.

Harris was one of the numerous Democrats who were in the field for United States Marshal, but compromised by accepting the post of assistant custodian at a lower salary, so that harmony might reign in the ranks of the Democracy. He was also a candidate against Sheriff Hammel at his last election, and it was necessary for the election clerks to work double time in order to get the size of the navy vote.
